Personality Type

Confidential Report

Justin Adkins

Personality Type: **ESTJ**
 You described your profile as: **Very Accurate**

Introduction

Of the many factors that contribute to a successful future, an understanding of Personality Type is among the most useful.

While interests and skills change during the course of a person's life, the one thing that does remain constant is an individual's Personality Type - the innate way each person naturally prefers to see the world and make decisions. And although all individuals are unique, people of the same type share enormous similarities in the kinds of academic subjects and careers they find interesting, and the kind of work they find satisfying.

By understanding the role Personality Type plays, people can gain important insights into their educational, career, and relationship needs. And because people of different types often communicate in very different ways, counselors and teachers can learn which strategies work most effectively with each individual student.

Understanding you, Justin

People like you are outgoing, responsible, and quite strong willed. You like to be around other people and are talkative, friendly, and confident. You prefer to be in charge of any situation, and are usually good at organizing events and groups of people. Since you are so concerned about fairness, and have very clear opinions about what's right and wrong, you tend to become annoyed when people make exceptions to the rules or simply ignore them altogether. Outspoken, honest, and direct, you may sometimes interrupt or bluntly step on peoples' toes without even realizing it. You are naturally quite organized and productive, make quick decisions, and like to finish one project on time and neatly before starting another.
