MANUAL OF POLICIES APPROVED BY THE BOARD OF DIRECTORS

POLICY 533:

WELLNESS

[Note: All school districts that participate in the National School Lunch and School Breakfast Programs are required by the Healthy, Hunger-Free Kids Act of 2010 (Act) to have a wellness policy that includes standards and nutrition guidelines for foods and beverages made available to students on campus during the school day, as well as specific goals for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness. The Act requires the involvement of parents, students, representatives of the school food authority, teachers of physical education, school health professionals, the school board, school administrators, and the public in the development, implementation, and periodic review and update of the wellness policy. The Act also requires a plan for measuring implementation of the policy and reporting wellness policy content and implementation issues to the public, as well as the designation of at least one person charged with responsibility for the implementation and oversight of the wellness policy to ensure the school district is in compliance with the policy.]

I. PURPOSE

The purpose of this policy is to set forth methods that promote student wellness, prevent and reduce childhood obesity, and assure that school meals and other food and beverages sold and otherwise made available on the school campus during the school day are consistent with applicable minimum local, state, and federal standards.

III. WELLNESS GOALS

[Note: The Act requires that wellness policies include goals for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness.]

A. Nutrition Promotion and Education

- 1. Nova Classical Academy will encourage and support students' healthy eating and engage in nutrition promotion that is:
 - a. part of a comprehensive program designed to provide students with the knowledge and skills necessary to promote and protect their health;
 - b. part of health education classes, as well as classroom instruction in subjects such as math, science, language arts, social sciences, and elective subjects, where appropriate; and
 - c. enjoyable, developmentally appropriate, culturally relevant, and includes participatory activities (such as contests, promotions, taste testing, or field trips).
- 2. Nova Classical Academy will encourage all students to make age appropriate, healthy selections of foods and beverages, including those sold individually outside the reimbursable school meal programs, such as through á la carte/snack lines, vending machines, fundraising events, concession stands, and student stores.

B. Physical Activity

- 1. Students need opportunities for physical activity and to fully embrace regular physical activity as a personal behavior. Toward that end, health and physical education will reinforce the knowledge and self-management skills needed to maintain a healthy lifestyle and reduce sedentary activities, such as watching television;
- 2. Opportunities for physical activity will be incorporated into other subject lessons, where appropriate; and

3. Classroom teachers will provide short physical activity breaks between lessons or classes, as appropriate.

C. Communications with Parents

1. Nova Classical Academy recognizes that parents and guardians have a primary role in promoting their children's health and well-being.
2. Nova Classical Academy will support parents' efforts to provide a healthy diet and daily physical activity for their children as a part of educating the whole child in a manner consistent with classical education.

IV. STANDARDS AND NUTRITION GUIDELINES

[Note: The Act requires that school districts have standards, selected by the school district, for all foods available on the school campus during the school day with the objective of promoting student health and reducing childhood obesity. For foods and beverages sold to students during the school day on school campus, the Act requires that school districts also have nutrition guidelines.]

A. School Meals

[Note: The Act specifically requires that the wellness policy contain standards and nutrition guidelines for all foods and beverages sold to students during the school day that are consistent with the meal requirements for lunches and after-school snacks set forth in 7 C.F.R. § 210.10 and the meal requirements for breakfasts set forth in 7 C.F.R. § 220.8.]

2. All competitive foods will meet the USDA Smart Snacks in School (Smart Snacks) nutrition standards and any applicable state nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods between 8:00 am and 3:45 pm, and create an environment that reinforces the development of healthy eating habits.
3. Before and Aftercare (child care) programs will comply with the school district's nutrition standards unless they are reimbursable under USDA
